## [Work Ready Website](#)

WorkReady summer models offer educationally-enriched work exposure to in-school and out-of-school youth and young adults, ages 14-21. Participants complete a six-week (120 hour), paid work experience that fosters the acquisition of the 21<sup>st</sup> century skills through work-based learning. This continuum of models challenges youth to understand the correlations between work experience, high school completion and credential attainment, and how those variables impact their potential for college and career success.
