STUDENT BODY STATISTICS 2023-24

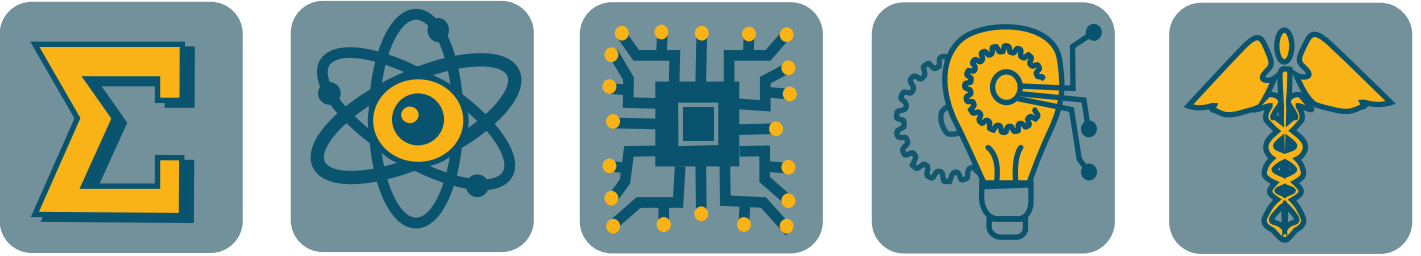

George Washington Carver High School of Engineering and Science is an innovative, inclusive, and college preparatory criteria-based school for grades 7-12 serving academically talented and motivated students interested in the sciences, technology, engineering, mathematics, medicine, and other STEM-related career fields. We are committed to providing a rigorous curriculum with a focus in these areas, enriched by relevant extracurricular opportunities that are student centered.

Our mission is to prepare our students with the academic and organizational skills for collegiate success and to empower students with the social and leadership skills to be lifelong learners and productive citizens.
